

Executive Summary

Impact of object change on BO reports

Found 5 directly or indirectly impacted objects.

Impacted Analysis Views: 0 via InfoProviders, 0 via Queries, 0 by Queries on selected InfoProviders.

Impacted Web Intelligence Docs: 0 via Queries, 5 by Queries on selected InfoProviders.

Impact of object change on BO reports

This report connects to a BO server and analyses the possible impact of object changes on the NetWeaver system on BO objects. That means the report searches the BO elements that depend directly on a selected BEx Query, a selected InfoProvider or (if selected) on a BEx Query that is defined on a selected InfoProvider (transitive dependency).
